ABOUT

A passionate software engineer with a background in cybersecurity and data science. Skilled in developing scalable web applications and cloud solutions, with a strong focus on security best practices. Adept at collaborating in cross-functional teams and continuously learning emerging technologies.

EDUCATION

Bachelor of Technology in Computer Science (Cyber Security)   *2020–2024*
Shri Ramdeobaba College of Engineering and Management

Master of Science in Data Science   *2025–2027*
Stanford University

WORK EXPERIENCE

Software Engineer   *July 2024–Present*
Infosys

- Designed and implemented REST APIs using Node.js and Express.
- Optimized database queries, reducing response times by 30

Summer Intern   *June 2023–August 2023*
Google

- Developed a prototype feature in Google Maps for enhanced route planning.
- Wrote comprehensive unit tests in Python, achieving 90

PROJECTS

Web Based Facial Authentication (Liveness Detection)   *2023*
Python, ReactJS, Bootstrap

- Facilitated secure user logins with live detection techniques via a Chrome extension.

Realtime Chat App   *2022*
ReactJS, Firebase, Bootstrap

- Built a real-time chat application using Firebase for authentication and data storage.

COVID-19 Tracker   *2021*
JavaScript, HTML/CSS, APIs

- Created a dashboard with live API data and Google Maps integration to track cases worldwide.

TECHNICAL SKILLS

Languages: C/C++, Python, JavaScript
Frameworks: ReactJS, Django
Tools: Git, Docker, VSCode
Databases: MongoDB, MySQL

COURSES

Machine Learning   *June 2022*
Coursera

AWS Certified Cloud Practitioner   *March 2023*
Amazon Web Services
